

Resume Skill & Education Extraction Agent - Assignment Report

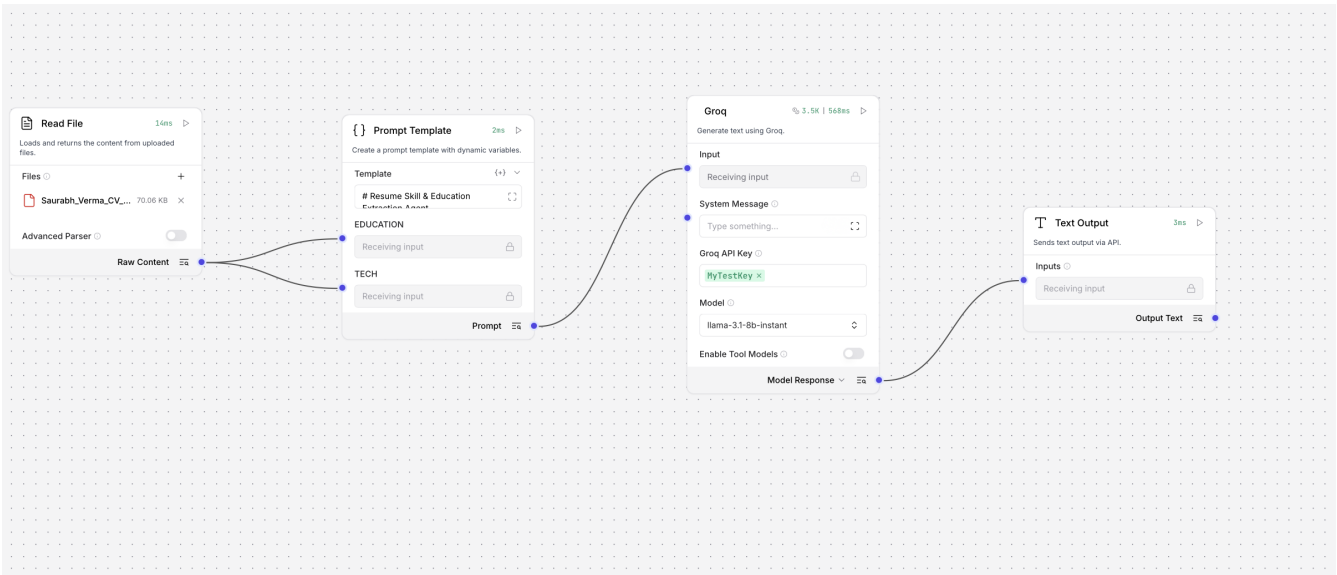

Assignment Objective

Build an AI workflow that reads a PDF resume/CV and extracts: Education details Technical skills
The solution must operate in strict mode and return only relevant education and technical skill information.

Implementation Summary

The workflow was implemented using Langflow components: Read File component to load resume PDF content. Prompt Template component with strict extraction instructions. Groq LLM (llama-3.1-8b-instant) for information extraction. Text Output component to display extracted results.
